

Project No 2020-2-DE04-KA205-019858

In the final month of the project, all partners celebrated the project outcomes and resources and invited stakeholders and interested parties to learn about Value. In Austria, the multiplier event took place on 8th September. Participants showed great interest in the issues presented by BEST, and a lively discussion arose about the significance of social engagement and the empowerment of young and disadvantaged young people to take an active part in society.

The multiplier event in Slovenia was hosted by MCC on 30th September with the participation of 24 people. The evaluation and feedback session at the end of the event showed that the attendees were moved by the issues that young disadvantaged people face in everyday life.

Inova's event took place on 30th September and it was a great opportunity to present the outcomes of the Value project and raise awareness of the challenges young people face. Based on the feedback collected from participants, the event was a success.

The multiplier event in Germany, organised by IB, took place on 22nd September. All results were presented to interested stakeholders and people. Participants wanted to have a deep insight in the Value project outcomes. One of the last project steps - the multiplier event - was a great success in Germany as well.

Although the Value project is coming to an end, all results and materials remain available on the project website for free. Visit the page to continue benefitting from the project resources and outputs.
